PERSONAL PROJECTS

Reminder App - 2021 -MAD Project (03/2020 - 07/2020)

- The app I developed allows users to set reminders for important dates and events. Users can easily create reminders and dismiss them at any time, providing a convenient and reliable way to stay organized and never miss an important date.

Hostel Management System (08/2021 - 02/2022)

- This project includes all the record of employee's, new interns, mess and all is stored in it. It will manage the whole hostel through which employee attendance will also marked.

Robot Cars -2022-IOT Project (03/2022 - 07/2022)

- kind of cars in which different types of sensors were used to avoid hurdles, used to check the radiation, used to check the voice control and also connected to the mobile via bluetooth module.
